

Location: Rudders Wharf, Yarmouth NS

Dates: August 17th – 20th, 2022

Hi

The Yarmouth Shark Scramble is a non-profit fishing tournament where teams compete to catch the largest weight of a single shark. The event is used as a fundraiser for local charities, with all catch information reported to the Department of Fisheries and Oceans for scientific research.

In 2021 we had 14 vessels with 110 participants.

Yarmouth Shark Scramble gained international attention in 2004 when the vessel Pembroke Princess landed one of the biggest Shortfin Mako Sharks on the planet and setting a Canadian record with his proud 1082 lb catch. This shark is featured on the main page of our website. We will also be unveiling our live replica of this shark, this summer during the tournament.

As in the past this great community event would not be possible without the tremendous support from our loyal sponsors like you. If you would like to be involved with the sponsorship either in a small or big way, please review the attached Sponsorship Levels. For your sponsorship, the company will receive recognition on our website www.yarmouthsharkscramble.com, Facebook Page, Radio, Newspapers, and also on the famous Yarmouth Shark Scramble t-shirts.

Come and be a part of the Largest Shark Fishing tournament in Eastern Canada and promote our beautiful communities!

This also gives your company great exposure to the Marine Industry.

Please call with any questions you may have.
